

DOLPHINCHARTERS

ALASKA, CALIFORNIA,
BAJA, GALAPAGOS
& BEYOND

"...Each of them in his own tempo and with his own voice discovered and reaffirmed with astonishment the knowledge that all things are one thing and that one thing is all things - plankton, a shimmering phosphorescence on the sea and the spinning planets and an expanding universe, all bound together by the elastic string of time. It is advisable to look from the tidepool to the stars and then back to the tidepool again."

From: *The Log from the Sea of Cortez* by John Steinbeck

Dolphin Charters hopes to show you the serenity, beauty and majesty of the marine wilderness and our natural world.

Dear friends

Dolphin Charters' natural history programs are designed for nature lovers. With our 50 ft. trawler style exploration boat "Delphinus" we invite you to explore, experience, and educate yourself about the natural world around you. Photographers, wildlife enthusiasts, and lovers of vastness will find these voyages unsurpassed.

Our tour leaders are wonderful naturalists and renowned photographers that share with you their extensive knowledge of marine wilderness areas. We specialize in small groups, as is appropriate to true wilderness and to ensure a unique intimate experience.

california day cruises

October through May (and now some in the summer) Dolphin Charters offers varied and interesting day cruises in the San Francisco Bay and its' surrounding waterways. Trips up the Napa and Petaluma Rivers as well as the Sacramento/San Joaquin Delta provide forays into a watery natural world that most of us don't realize exists. Many of these wetland and coastal areas look much as they would have 100-200 years ago and other parts have changed dramatically. Come with us and visit these important natural and cultural history aspects of California that shaped our state.

All of our trips are narrated and we encourage passengers to ask questions about the shorelines, islands, and wildlife that we encounter.

Apart from our Road Scholar, museum, and college Bay Area trips, we are also available for private and group charters. Please call for details, and our fall 2011 and winter/spring 2012 California schedule will be on our website.

ecuador

Separate from our Pacific Northwest and California cruises Ronn Patterson and Dolphin Charters try to set up one or more Ecuador/Baja trips each year. For 2012 (and 2013), we have Ronn Patterson leading a three part natural history excursion starting with a 10 day cruise in the Galapagos Islands, proceeding to a lodge in the Ecuadorian Cloud forest, and ending with a dugout canoe trip in the Amazon rain forest. Ronn is very familiar with these areas, and along with wonderful Ecuadorian guides will give you a terrific insight into the tremendous diversity found in Ecuador.

These trips can be taken together (which gives a discount) or separately. See the website for details.

alaska and british columbia

Hello all adventurers!

We kick off the 2012 Alaska/British Columbia season with our Fabulous Inside Passage cruise from Port Townsend to Ketchikan. Start in the U.S., visit remote fantastic parts of coastal British Columbia, and end back in the U.S.

Next on the agenda is a photo workshop with Roger Devore. His 2011 trip was very popular and they had terrific ice, porpoise and sea otters. Following his workshop are two Glacier Bay trips, the first one a photo tour led by Australian photographer Darran Leal. The second one is also a photo tour in Glacier Bay. These two trips have it all every year - ice, spectacular scenery, sea otters, and WHALES! Also some of the best birding in the Southeast area.

The next trip up is a tour called "Whales and Bears" running between Hoonah and Wrangell. Pack and Anan Creek bear areas are on this agenda as well as spectacular ice creations up the fiords.

The Wildlife Specials that run between Wrangell and Juneau or Wrangell and Petersburg showcase the natural history and beauty of this area. All will visit Pack and Anan Creeks for bears, glaciers and ice kingdoms, and traverse gorgeous scenery looking for other marine life. Our final two trips of the season emphasize remote British Columbia. The Spirit Bear trip and the Orcas cruise highlight the spectacular natural beauty of Northern B.C., and the wildlife and First Nation cultures to be found there. Excellent naturalists and photo leaders that give you a look at people and places that are "off the beaten track" are a key part of these experiences.

Please check the website for more information on these trips and the people leading them. All of our photo leaders are terrific people and are very familiar with nature, scenic, and wildlife photography. The itineraries for each trip (which are much more detailed than in this brochure) are sent upon request or at time of enrollment.

Come and join us for an unrivaled adventure!
